Newsletter N° 3

May 2022

The construction sector is the largest waste producer in Europe: construction and demolition waste (C&DW) represents the largest volume of waste generated in the EU!

CDWaste-ManageVET is a project co-funded by the EU Erasmus+ program under Key Action 2: Cooperation for innovation and exchange of good practice, supporting strategic partnerships for vocational education and training.

Project reference number: 2019-1-FR01-KA202-00

Online training program for the management of CD Waste

We have created a pilot **Online Training Program for the management of CDWaste in which the learners will participate** through a Moodle platform on the project website. The total duration of the training is estimated at 80 hours and includes the following Training Modules:

TRAINING MODULES	
A	Waste legislation and environmental issues
B	Waste management at the construction site
C	Construction and Demolition Waste Management and Recycling
D	Life Cycle Assessment (LCA) of construction materials and environmental sustainability

The creation of the **Training Program** came after the development of the **skills roadmap**, based on a detailed **research** and **focus groups** organised with representatives from the field of business and training. **It is a very innovative topic for which the labour market demands skills!**

The European Commission's support for the production of this publication does not constitute an endorsement of the contents, which reflect the views only of the authors, and the Commission cannot be held responsible for any use which may be made of the information contained therein

Co-funded by the
Erasmus+ Programme
of the European Union

The **learners** in the pilot Training Programme of the CDWaste ManageVET project, which is designed focusing on **European EQF level 5**, will have the opportunity to enhance their knowledge, skills and competences.

For more information follow the **European CDWaste ManageVET** project which aims to develop a vocational programme that responds to training needs related to the effective management of CD waste in line with EU priorities and the EU strategy for a circular economy.

CONSTRUCTION Demolition Waste

Co-funded by the Erasmus+ Programme of the European Union. This project has been funded with support from the European Commission. Project partners:

CDWaste-ManageVET partnership involves 7 partners coming from 6 EU countries, representing the public and private sector, in the fields of sustainable development and training.

OECE | **FRANCE** (Project Coordinator)
OFFICE DE L' ENVIRONNEMENT SE LA CORSE
Regional Public body

PEDMEDE | **GREECE**
PANHELLENIC ASSOCIATION OF ENGINEERS
CONTRACTORS OF PUBLIC WORKS
Social partner representing the construction sector

EKS | **GREECE**
EUROPEAN KNOWLEDGE SPOT
NGO

FORMEDIL | **ITALY**
FORMEDIL ENTE NAZIONALE PER LA
FORMAZIONE E L'ADDESTRAMENTO
PROFESSIONALE NELL'EDILIZIA
National paritarian organization for VET

ISQ | **PORTUGAL**
INSTITUTO DE SOLDADURA E QUALIDADE
Engineering, Research Institute & VET Centre

UPB | **ROMANIA**
UNIVERSITATEA POLITEHNICA DIN
BUCURESTI
Higher education institution

FLC | **SPAIN**
FUNDACION LABORAL DE LA CONSTRUCCION
Foundation & VET Centre
